ORIS COLOR TUNER // WEB

Web-based soft- and hardcopy proofing in one package

Check it Out!

The latest Version ORIS COLOR TUNER // WEB

COMMUNICATING COLOR WORLDWIDE. ORIS Color Tuner // Web is the world's first proofing system providing web-based soft- and hardcopy proofing in one package!

Key Features

- View Print Certify in one application
- Soft- and hardcopy proofs matched to the same standards - FOGRA, GRACoL, SWOP, 3DAP etc.
- Easy to operate wizard-based user interface no color
- expertise required
- Seamless client/server architecture
- Simple remote job submission, pre-flight and control
- Patented iterative color management ensures accurate and reproducible results
- Easy management of global remote proofing with latest generation of inkjet printers
- 30 day fully functional ORIS Certified // Web included
- Printer setup wizard

- Selective color correction and profile smoothing
- Fully supports the latest generation printers with white, metallics, varnish and built-in cutter
- Independent and iterative spot color matching
- Support of Hexachrome/n-channel
- Continuous- and halftone dot proofing option for color accurate screened proofs
- Accepts all major digital file formats
- Intelligent scatter-proof function
- Easy creation of media profiles
- Uses the printer manufacturer's original screening and resolutions

ORIS COLOR TUNER // WEB

Web-based soft- and hardcopy proofing in one package

Hard and soft proofs in one package

Afraid of making the wrong decision in proofing? Don't know whether to go hardcopy or softproof? CGS removes the risk of making the wrong decision by offering the industry's only integrated hardcopy and virtual proofing system. By combining the features of the two market leading products, ORIS Color Tuner and ORIS Soft Proof, into the brand new ORIS Color Tuner // Web, CGS provides the ultimate flexibility in color proofing technology - from one package and with risk-free and reliable results.

Contract proofs

With ORIS Color Tuner // Web, CGS presents a ground-breaking web-based version of its product line. ORIS Color Tuner // Web allows users to control and track print jobs from anywhere in the world via the internet. The new user interface efficiently integrates the software features of ORIS Color Tuner, ORIS Soft Proof and ORIS Certified // Web (optional) into one product, making it easier to manage and monitor global remote proofing - which is increasingly important with the popularity of embedded measurement devices. ORIS Color Tuner // Web fully supports the new Epson SpectroProofer and the latest Canon iPF 6450 with "on board spectro." The intuitive and user-friendly interface allows users to work quickly and efficiently.

Perfect Spot Color matching and support of Hexachrome and n-channel profiles. No wonder ORIS Color Tuner // Web is the favorite of color experts all over the world.

Web-based

The web-based client/server architecture enables ORIS Color Tuner // Web to be integrated easily and quickly within an existing workflow, independent of the operating system or web browser used. A comprehensive list of workflow tools such as automatic preflighting, file compression, FTP send & receive, Regular Expressions, email notification, etc. are included to make ORIS Color Tuner // Web a powerful production workflow in its own right.

Supported file formats

ORIS Color Tuner // Web supports all known pre-press file formats including PDF/X, composite or separated, PDF and PostScript, EPS, DCS, JPEG, TIFF, TIFF/IT-P1, 1-Bit Tiff, Esko LEN, Scitex Handshake CT/LW, Scitex NLW and NCT.

Recommended system configuration

PC with Intel Core i7 or comparable, at least 4GB RAM, 500 GB (min.) hard drive or RAID, IE 9, DVI graphics card with DirectX 9C support and Direct 3D Acceleration, USB, CD-ROM, 10/100 Mpbs Ethernet, Windows 8 or Windows Server 2012. The exact hardware configuration is dependent on the type and number of output devices.

Supported measuring instruments

- Current models from X-Rite
 - including former GretagMacbeth devices
- Barbieri Spectro Swing, Barbieri LFP SP3
- Konica Minolta FD-5/FD-7
